Payments Innovation Forum

Accelerating What's Next in Payments

Tuesday, May 16, 2023

SoFi Stadium, Verizon Lounge | 975 E. Arbor Vitae St. | Inglewood, CA

Acceleration in payments innovation continues to blur the line between technology and transaction banking with many businesses looking to seamlessly connect payments for internal efficiencies and contextual customer experiences. Hear LA-area leaders, fintech innovators and payments professionals discuss payments technologies and strategies that can enable long-term growth and sustainability for your business.

11:30 a.m. | Registration

Noon | Luncheon Session | Verizon Lounge

1 – 4:15 p.m. | Afternoon Program

4:15 – 6 p.m. | Reception & Entertainment

Agenda

11:30 a.m. **Registration | Verizon Lounge**

Noon **Every Payment Speaks Volumes**

Eileen Dignen, Managing Director, Global Head of Payments | Corporate Client Banking | J.P. Morgan

12:10 p.m. **Keynote Luncheon | A Metaverse of Business Possibilities**

The metaverse is defined as a seamless convergence of physical and digital life, creating a unified, virtual community with endless possibilities. Because of the benefits of scale it offers, many companies are entering the metaverse in different ways. We'll deconstruct what the metaverse is and how business leaders can realize a metaverse of business opportunities in almost every market area.

Enrico D'Angelo | Vice President of Product Development | Roblox
Brody Mulderig | Executive Director | J.P. Morgan Payments

12:40 p.m. LA Rams – Leading the NFL in DEI Culture

The Los Angeles Rams are one of several teams taking part in the NFL's Bill Walsh Coaching Fellowship and the Diversity in Sports, aimed at creating pathways for minority candidates on NFL teams and staffs. To the Rams, the effort is important — hoping their staff represents the diversity seen in Los Angeles. Hear a fireside conversation on this on other leadership topics.

Jacques McClendon | Former NFL Player & Director, Football Affairs | LA Rams
Thelma Henderson, Executive Director | CCBSI Healthcare | J.P. Morgan

1:10 p.m. Panel discussion | Weathering Market Disruption

Banking has been in the headlines recently for all the wrong reasons. Our panel of experts will discuss the chain of events that led to the second biggest bank failure in US history and steps investors can take to manage counter party risk, preserve their hard-earned cash, and build investment policies that stand the test of time.

Susan Davis, Corporate Treasurer | Riot Games
Ella Wood, Executive Director | Global Liquidity Product Solutions Specialist | J.P. Morgan
Victoria Albovias, Executive Director | Corporate Treasury Consulting | J.P. Morgan
*Moderated by **Greg Kerwick**, Managing Director | Head of Payments Client Solutioning and Commercialization | J.P. Morgan*

1:35 p.m. Blockchain's Next Evolution: Modernizing Commercial Payments & Treasury

The demand for blockchain solutions that enable faster payments, as well as optimal liquidity management will continue to grow for corporations and institutions as blockchain becomes increasingly adopted for payments, capital markets and increasingly complex commercial transactions. There are a number of different infrastructures and “digital money” solutions developing to meet this demand. This session explores the intersections of different forms of blockchain infrastructure and the payment and treasury solutions they may enable, including bank account-based solutions, deposit tokens, and the potential for multifunctional programmability of money.

Thomas Olsen, Senior Partner | Bain & Company
Nelli Zaltsman, Vice President | Lead Product Designer | Onyx by J.P. Morgan
Abhinav Natarajan, Executive Director | Global Product Head, J.P.Morgan Coin

2:15 p.m. Coffee Break | Innovation Stations

- Cashflow Intelligence – Kevin Skinner
- Developer Portal for APIs – Kody O'Connell

2:30 p.m. ChatGPT: Hype vs Reality

There's a lot of buzz regarding ChatGPT a large language model with advanced, almost human-like conversational capabilities. But what is it really? This session defines and demystifies the technology behind ChatGPT, how it works and its limitations.

Joe Fuqua, Chief Technology Officer | neurothink, Inc.

Steve Bernstein, Executive Director | J.P. Morgan Payments

3:00 p.m. Grow Your Business Through Big Data Analytics

Digital innovation is pushing payments beyond a banking and purchasing function into a role that connects our physical and digital societies and provides data analytics and intelligence that can help foster innovation across infrastructures, products and services. Artificial intelligence is making a significant impact across many business functions—saving time and money and providing insights. Learn from industry leaders who are using AI, ML and even ChatGPT to transform their business models.

Janaki Kumar | Managing Director, Head of Design, Commercial Bank | J.P. Morgan

Steve Turk | Managing Director, Data Management Executive, J.P. Morgan

Steve Bernstein, Executive Director | J.P. Morgan Payments

3:30 p.m. Cybersecurity Threats and Bad Actors

Cybersecurity threats have become increasingly pervasive— impacting organizations globally, disrupting significant business operations and resulting in financial loss. Hear cybersecurity experts discuss the latest fraud schemes and actions you can take to safeguard your organization.

Deronda Dubose | Senior Special Agent, United States Secret Service,
Cyber Fraud Task Force

Matanda Doss | Executive Director, Cybersecurity and Technology Controls,
Commercial Banking, J.P. Morgan

Steve Bernstein | Executive Director, J.P. Morgan Payments

4:00 p.m. Sustainability Trends Businesses Should Consider

Sustainability is taking center stage on more C-Suite agendas, as investors, business partners, and employees increase their expectations for corporate leadership. As policy, technology, and market forces evolve, the financial case for going green is strengthening, though in some cases the “green premium” remains. From disruptive changes that create cost efficient opportunities to reduce greenhouse gas emissions faster, to the emerging fields of climate resilience and nature and biodiversity, join experts for a discussion on trends shaping this decade in sustainability and what they could mean for you.

Ryan Lockwood | Chief Financial Officer | Carparts.com

Frank Nau | Co-Founder and Chief Operations Officer | Loop Global, Inc.

Frank Boroch | Vice President, Treasury and Investor Relations | Fisker, Inc.

Derek Schofield, Executive Director, Relationship Executive | Middle Market Banking & Specialized Industries | J.P. Morgan

4:30 p.m. Closing Remarks

Krista Sharp | Managing Director | Payments Sales Co-Head | Middle Market Banking & Specialized Industries | J.P. Morgan

4:30– 6:15 p.m. Networking & Entertainment Reception

Bios

Eileen Dignen | Managing Director, Global Head of Payments | Corporate Client Banking | J.P. Morgan

Eileen Dignen is the Global Head of Payments Sales for Corporate Client Banking in Commercial Banking at JPMorgan Chase. Dignen leads a global team of TS professionals serving clients across the U.S., Asia and Europe with integrated, end-to-end treasury solutions. Dignen also sits on the Corporate Client Banking management team. She has more than 30 years of corporate treasury experience, with a robust track record of developing and executing highly successful client solution strategies through various leadership roles at PNC, Bank of the West/BNP Paribas, The Clearing House and Swift. Most recently, Dignen served as both the Chief Operating Officer and Head of Product Strategy for PNC's treasury management group and led merchant services and strategic sales for the corporate bank group. Prior to PNC, she was Head of the Bank of the West's treasury solution division, where she led the development and transformation execution of their cash-management suite of services, including the bank's initiative for a single global platform. During her time at The Clearing House, Dignen was responsible for CHIPS, the company's cross-border payment system, and SVPCO, the company's check image exchange network. At Swift, Dignen led innovation and payments initiatives for the Americas region, where she focused on financial institutions ranging from small businesses to multinational corporates. Additionally, she has also held senior positions in global treasury management and credit at Citi and First Union/CoreStates Financial (now owned by Wells Fargo). Dignen is based in New York with her husband Mike. She and Mike have two sons: Chris is a graduate student attending Boston University, and Brian is a recent college graduate currently in a credit bank training program in the Philadelphia area.

Enrico D'Angelo | Vice President of Product Development | Roblox

Enrico D'Angelo serves as Vice President of Product, Developer Platform at Roblox. He guides our developer product strategy to empower creators as they build immersive, cross-platform experiences reaching millions of players around the world.

Enrico is an accomplished industry leader with more than 15 years of experience in domestic and international corporate strategy, product management, and business development. Prior to joining Roblox, he was at Activision and launched several free-to-play products including Call of Duty Online and Call of Duty Heroes. In addition, Enrico led Activision Blizzard's Strategy, Business Development, and M&A team. He also previously served as Associate Principal at McKinsey & Company where he served media, gaming companies, and investors worldwide. Enrico received his MBA from Harvard Business School and graduated with a BS in Business.

Brody Mulderig | Executive Director | J.P. Morgan Payments

<https://www.linkedin.com/in/mulderig/>

**Jacques McClendon – Director, Football Affairs, Los Angeles Rams**

Jacques McClendon enters his seventh season with the Los Angeles Rams in 2023, serving as the Director of Football Affairs. In this role, he is a key liaison between football & business operations for the organization and is tasked with leading and aligning Player/Alumni Affairs and their integration within the overall organizational strategy. He assists in the scouting process and was an attendee of the 2022 Ozzie Newsome GM Forum. McClendon is a member of the Executive Leadership team with the Rams and serves on the Player Benefits, Bill Walsh, DEI and Legends steering committees with the NFL. He spent 7 years as an NFL player, was a four-year letterman at the University of Tennessee where he graduated twice, and recently graduated with his MBA from Brown University. McClendon is a member of the Rams' Diversity and Inclusion Council and serves on the advisory for the Black Sports Symposium that launched last year. He is also a board member at Unify Financial Credit Union and a co-chair of the Sport Governance and Structure Committee with the Knight Commission on Intercollegiate Athletics.

Thelma Henderson, Executive Director | CCBSI Healthcare | J.P. Morgan

<https://www.linkedin.com/in/thelma-henderson-19a88b10/>

Susan Davis, Corporate Treasurer | Riot Games

Susan joined Riot Games in 2012, as Corporate Treasurer, during the launch of the award-winning game League of Legends. During her tenure, Riot has grown into a multi-platform, video game company and an Emmy-Award winning animation studio. She oversees Riot's global treasury operations, capital funding and risk management programs.

Previously, Susan was Vice President, Treasurer of Global Crossing, LTD, a cable network developer, where she helped build the global treasury infrastructure and led the acquisition and operational integration of Frontier Communications. Susan also spent 10 years with The Walt Disney Company in a variety of Senior Treasury roles, managing cash investments, global payments, FX risk management, and capital markets. While at Disney, Susan had the opportunity to implement and manage centralized treasury centers in Hong Kong and the Netherlands. She also led the financing for the acquisition of Cap Cities ABC, and structured several film-financing deals, including Touchwood Pacific Partners.

Currently, Susan is a Treasury Advisor to the Board of Directors of a public semiconductor company, and she has served as an Investment Advisor to the Commission of Economic Development for the State of California.

Susan holds an MBA from UCLA, Anderson Graduate School of Management, and earned a bachelor's degree in economics from UC, Santa Barbara. She has a CTP

and CFA designation and has published several articles on finance and risk management for International Treasurer and TMI publications.

Ella Wood, CPA Executive Director | Global Liquidity Product Solutions Specialist | J.P. Morgan

Ella is an Executive Director on J.P. Morgan's Global Liquidity Solutions team, based in Los Angeles, California. She is Head of Core Middle Market Liquidity PSS and leads a team that is responsible for the management of the global liquidity portfolio and delivering liquidity solutioning and investment product solutions for Middle Market & Specialized Industries.

Ella has 18 years of banking and finance experience with a background in public accounting. She joined J.P. Morgan Chase in 2014 holding roles in Finance and Planning, Reporting & Analysis before joining the Global Liquidity Solutions team. Ella is deeply involved and a leader in JPMorgan Chase's Diversity & Inclusion initiatives including roles as Co-Chair for the Women on the Move California Chapter, D&I Champion for Wholesale Payments Product Delivery Team, member of the Market Leadership Team D&I Committee and People Pillar Champion Lead for the D&I Committee. She serves on the Board of Directors as well as Development Committee Chair for Beauty Bus Foundation. She also volunteers as a Court Appointed Special Advocate for CASA/LA. Ella is passionate about empowering women and girls to succeed in their personal and professional lives. Ella earned her Bachelor of Science and Masters in Accounting from the University of Missouri Columbia. In her free time, she is an avid runner and triathlete and currently resides in Santa Monica, California with her two rescue beagles.

Victoria Albovias, Executive Director | Corporate Treasury Consulting | J.P. Morgan

Vicky Albovias is the head of the Corporate Treasury Consulting within the Commercial Bank at J.P. Morgan. The team works directly with clients on corporate treasury initiatives by providing market insights and best practices on topics such as treasury transformation, centralization, merger integration, and market leading practices and trends. They conduct deep dive process reviews, roadmap development, and solution design for complex problems faced by clients. Prior to leading the team, Vicky was a market consultant covering the Midwest client base as well as Non-Bank Financial Institutions and Real Estate. She held similar responsibilities as part of the Treasury Solutions team within the Corporate and Investment Bank of J.P. Morgan, supporting large multi-national companies through these same issues.

Before joining J.P. Morgan, Vicky was a Principal at Treasury Strategies, consulting to both banks and corporates on various treasury management engagements, and worked in the Treasury Consulting group at Aon where she partnered with the various business units in selecting and implementing banking services to support their needs. Vicky grew up in the Philippines and holds an MBA from University of Chicago Booth School of Business. She is married and based in Chicago.

**Greg Kerwick, Managing Director | Head of Payments Client Solutioning and Commercialization | J.P. Morgan**

Greg Kerwick is Managing Director, J.P. Morgan Commercial Banking, with 35+ years' Payments industry experience holding senior leadership positions in product, sales, marketing, commercialization and advisory. As Head of Payments Client Solutioning and Commercialization, he leads a number of high performing teams focused on payments solutioning, go-to-market strategy, advisory and data analytics – each with a focus to help clients innovate their business models, drive payments efficiency and optimize working capital.

Previously, Greg headed up Treasury Services Sales nationally for J.P. Morgan's Corporate Client Banking segment, and spent 10 years in Corporate Investment Banking where he ran an Advisory Solutions consulting group and national product sales organizations. Prior to that, Greg led regional co-branding sales at MasterCard, managed the beenz digital economy at beenz.com (a virtual currency start-up), and began his career in Product Marketing at Chase Manhattan Bank where he pioneered a number of industry innovations within the Consumer Card industry.

Greg is a graduate of Georgetown University's McDonough School of Business, sits on Georgetown's Hoyas Unlimited Board, and holds an MBA in Marketing from New York University. He is active in philanthropic activities in his Long Island community and is married with 4 boys.

**Nelli Zaltsman, Vice President | Lead Product Designer | Onyx by J.P. Morgan**

Nelli is the lead product designer for the Coin Systems team at Onyx by J.P. Morgan, which focuses on building innovative payment infrastructures and value-added payments and treasury services using blockchain technology. In her role, Nelli is responsible for leading the design of new products and product enhancements – bringing her background as an experienced attorney to the role to examine how applications of blockchain technology can optimally and responsibly be designed to advance regulated financial services. Nelli was formerly the global legal lead for JPMorgan Payments blockchain initiatives, and led the creation of the legal frameworks pursuant to which foundational Onyx products such as the JPM Coin System and Liink, are offered.

Abhinav Natarajan, Executive Director | Global Product Head, J.P.Morgan Coin
<https://www.linkedin.com/in/abhinavnatarajan/>

**Thomas Olsen, Senior Partner | Bain & Company**

Thomas Olsen is the global co-lead of our Web3 and Metaverse practice. He is also a leader in our Private Equity, Financial Services, and Strategy practices and leads the global Financial Market Infrastructure sectors in our Financial Services practice. He has also had roles leading our Strategy and Corporate Finance practices in Asia-Pacific and Payments sector in the Americas.

Thomas has extensive experience across developed and developing markets, working with financial investors, financial institutions in banking, payments and capital markets. Additionally, he holds deep expertise in corporate and portfolio strategy, M&A, risk, liquidity and capital management, and organizational design. Prior to joining Bain in 2008, Thomas was a partner with another global consulting firm in London, Singapore, São Paulo, and Zurich. He also spent five years with the World Bank, based in Washington DC and Caracas.

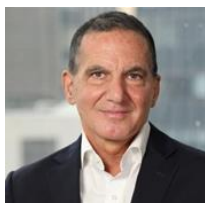

Thomas holds an MBA from INSEAD, an MSc from Cornell University, and a BA from Carleton College.

**Joe Fuqua, Chief Technology Officer | neurothink, Inc.**

Joe is a seasoned technologist and data scientist with demonstrated success leveraging information assets driving innovation, insight and operational excellence. Specific areas of expertise include analytics & information strategy, neural networks & machine learning, blockchain & smart contracts, collaboration & social learning. Joe was an early contributor (during the 1980's) in practical use of artificial intelligence, leading research in symbolic/expert systems and neural networks (bi-directional, Hopfield, and back-propagation networks). He has also led advancements in multi-sensor integration and predictive modeling using Kalman filtering (now commonly used in auto-navigation applications).

As Chief Data Scientist for both product and service-based companies, he has experience leveraging information assets to improve alignment of products/services to customer needs, optimizing operations, and developing deeper understanding of business dynamics. As CIO for Capital One's Credit Card Recoveries Division, he led a team of over 200 IT professionals supporting over \$1B in annual revenue. A recognized, published thought-leader in convergence of emerging technologies, he has spoken at multiple conferences regarding joint application of artificial intelligence, blockchain, and other technologies to address specific challenges in healthcare, financial services, and logistics.

He has an MBA in MIS and Operations from the Owen Graduate School of Management at Vanderbilt University. BS in Physics and Mathematics from the University of Kentucky, Phi Beta Kappa.

**Steve Bernstein, Executive Director | J.P. Morgan Payments**

Steven Bernstein has been with J.P. Morgan since 1984 and currently serves as US and Global ACH Business Development Manager. He works extensively with the firm's clients to provide solutions for ACH and electronic payments. Prior to his current role, Steven also worked within electronic data interchange, check processing and institutional teams. He is a frequent speaker at key financial

services events, including the AFP Annual Conference and NACHA. Steven is a graduate of Cornell University and resides in New York City.

Janaki Kumar | Managing Director, Digital Product Executive, J.P. Morgan

Janaki is a thought-leader in design-led innovation for the enterprise. She is committed to delivering award-winning products and services that help businesses transform the way they work. She is a proven leader in building, coaching and inspiring high-performance design teams, leveraging design-thinking, customer empathy, and co-innovation.

Steve Turk | Managing Director, Chief Data and Analytics Officer | J.P. Morgan Commercial Banking

Steve Turk is the Commercial Bank's Chief Data and Analytics officer and leads all data-driven initiatives for the line of business. Steve's responsibilities include Data Management/Privacy, Data Platform development and operational support, and ML Data Product Management. His combined Data Product, Operations and aligned Technology team is 250 employees. Over the past 5 years, Steve led CB's migration to a 100% cloud-based data platform, retiring 22 data marts and over 1,600 manual reporting processes. He also implemented a first-in-JPMC data network strategy that reaches 35,000 employees across 50+ (and growing) Wholesale Business applications, including the innovative company.IQ application (go/IQ). JPMC is in process of filing a patent for this data networking approach, which will be Steve's second as inventor including a Business-to-Business payment solution from his prior CB Payments Strategy executive role. Steve has worked for almost 20 years at JPMC, including 10 years in CIB Finance where he served as CFO for the Treasury Services Wholesale Payments business, and he also led the development and launch of the firmwide Wholesale Client Profitability (WCP) system. Prior to joining JPMC, Steve was a Brand Manager at Procter & Gamble and started his career as a Commercial Banking analyst at Indiana National Bank in Indianapolis, IN. Steve has a BA from Wabash College (Economics) and an MBA from the University of Chicago (Finance and Marketing). He is married with three children and lives in San Mateo, CA. In his free time, Steve enjoys playing classical piano and electric guitar, especially with his kids.

Ryan Lockwood | CFO, Carparts.com

In April 2022, Ryan Lockwood was named Chief Financial Officer for CarParts.com and is responsible for capital structure, real estate, investor relations, and market strategy. In his prior role as SVP of Finance, and as current CFO, he successfully organized and led a \$60M capital raise, negotiated and leased nearly 500K square feet of real estate, implemented a company ESPP and buyback plan, and increased institutional ownership from 43% to 81% of outstanding shares.

Before joining CarParts.com in 2020, Ryan spent nine years as a portfolio manager and head of fixed income for Private Management Group, a registered investment advisor based out of California which has approximately \$3 billion of AUM. His experience began on the equity side, managing all real estate, healthcare, and conglomerate exposure, and he was responsible for construction

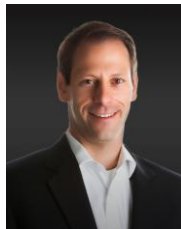

and management of a \$500 million fixed asset portfolio. During his tenure, his investment experience covered the entire capital stack as well as various risk levels including equities, preferred, distressed debt, busted converts, high yield, investment grade, and treasuries. Prior to Private Management Group, Ryan served as the CFO and Controller of HFE, LP, a family office that managed a \$350 million multi-sector real estate portfolio. Ryan holds a Bachelor of Science in Accounting and a Master of Business Taxation from the University of Southern California. He is also a CFA charterholder.

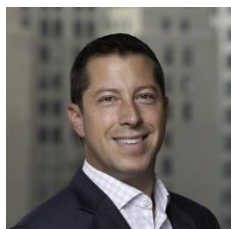

Frank Nau | Co-Founder and Chief Operations Officer | Loop Global, Inc.

<https://www.linkedin.com/in/frank-nau/>

Frank Boroch | Vice President, Treasury and Investor Relations | Fisker, Inc.

Frank brings over 20 years of corporate finance and capital markets experience to Fisker, where he is responsible for Treasury, Investor Relations, ESG, Automotive Finance and Insurance. Prior to joining Fisker, Frank was Head of Capital Markets and Investor Relations at Hyundai Capital America, where he was responsible for financing over \$40 billion in automotive assets. Previously, Mr. Boroch held roles in in-house investor relations, investment management, and sell-side equity research. He has a B.A. from Cornell University, an M.B.A. from New York University, and is a CFA® charterholder.

Derek Schofield, Executive Director | MMBSI | J.P. Morgan

<https://www.linkedin.com/in/derekschofield/>

**Deronda Dubose | Senior Special Agent, United States Secret Service, Cyber Fraud Task Force**

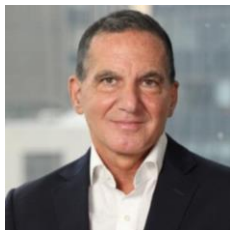

Deronda Dubose is a Senior Special Agent, SSA, with the United States Secret Service, USSS. SSA Dubose has been with the Secret Service for 21 years. SSA Dubose currently manages the Los Angeles Field Office USSS Cyber Fraud Task Force. The Task Force consists of over 60 local, state, and federal agencies. The Task Force is a Regional Cyber Center supporting law enforcement personnel throughout the Western Region. SSA Dubose has conducted and managed hundreds of complex fraud investigations to secure federal and local convictions specializing in cybercrimes. Her training includes Network Intrusion, Critical Systems Protection, Computer Forensics, Internet of Things, Mobile Device Forensics, and cryptocurrency.

SSA Dubose's expertise includes Cybercrimes Investigations, Protection, Training and Operational Leadership. SSA Dubose's primary mission is to provide protection to the President, Vice President, Former Presidents, and World Leaders both domestically and globally. Throughout her career, she has also managed the logistical operations for multiple National Special Security Global Events, to include the Summit of Americas, US Nuclear Summit, G8 Summits abroad, US Climate Summit, multiple Candidate Nominee Operations, and over 15 United Nation General Assemblies.

SSA Dubose has developed and presented instructional training for thousands of domestic and foreign law enforcement personnel, academia, and private entities on investigative techniques, digital forensics, and current cybercrime trends.

In addition, SSA Dubose has been an adjunct professor with the University of Phoenix since 2008. She's instructed over 60 courses covering Physical Protection, Executive Protection, Cybercrimes, Ethics, Emergency Preparedness, and Criminal Justice. Prior to her position with the Secret Service, SSA Dubose worked for the private sector in various leadership roles.

SSA Dubose holds a Bachelor's Degree in Business with an emphasis in Finance from Loyola Marymount University, and a Master of Business Administration Degree, MBA, from University of Phoenix.

**Steve Bernstein, Executive Director | J.P. Morgan Payments**

Steven Bernstein has been with J.P. Morgan since 1984 and currently serves as US and Global ACH Business Development Manager. He works extensively with the firm's clients to provide solutions for ACH and electronic payments. Prior to his current role, Steven also worked within electronic data interchange, check processing and institutional teams. He is a frequent speaker at key financial services events, including the AFP Annual Conference and NACHA. Steven is a graduate of Cornell University and resides in New York City.

**Matanda Doss | Executive Director | Cybersecurity and Technology Controls | J.P. Morgan**

Matanda Doss is an Executive Director for the J.P. Morgan Chase, Commercial Banking Cybersecurity and Technology Controls organization. He has 25 years of technology experience, across software development, ecommerce, mobile applications, data security and financial systems. Matanda serves as an Information Security Manager and is responsible for a team of information security professionals, overseeing internal cybersecurity, risk and controls for the Commercial Bank. He is also responsible for helping business leaders and technology teams with their cybersecurity initiatives through JPMorgan Chase's Protect the Client program.

Prior to joining the firm in 2021, Matanda designed, developed, and operated a payment processing solution for the U.S. Department of Defense Armed Forces Exchange. With security required at the code, process, and system levels, he quickly fell in love with the challenge of safeguarding and managing secure environments. As the system evolved and globalized, the company managed 14 years of level one PCI Compliance with zero failures or security exceptions until it's decommissioning in 2020.

Matanda has also held leadership positions with 5th Dimension Logistics, JDA Software (now Blue Yonder), and Global Health Experts. As a Senior Director of Technology at JDA software, he and his teams were responsible for developing award winning retail back-office systems and point of sale software.

Matanda holds a Bachelor of Science degree in Computer Science from Southern Utah University. During his free time, he volunteers for a local sports program, coaching and mentoring student athletes. He is a youth Gold Licensed Coach with USA Basketball and a two-time recipient of the Outstanding Performance Award from Dale Carnegie Executive Leadership. During his years as a college athlete, he was team captain, a multi-year letterman and an Academic All-American.

Krista Sharp, Managing Director | Co-Head of Payments Sales, Middle Market Banking and Specialized Industries | J.P. Morgan

Krista Sharp is Co-Head of Treasury Services for J.P. Morgan's Middle Market Banking & Specialized Industries business. Krista leads the national team in providing best-in-class treasury services to businesses across industry verticals, including tech, healthcare, higher ed, non-profits, life sciences and multi-national corporations. With 35 years of experience, she taps her extensive payments background to deliver solutions spanning payables, receivables, card and international banking.
